

EICMA 2024

As already announced through this channel, we will be present again this year at EICMA, one of the biggest two-wheel exhibitions! At our stand, Hall 9 - Stand I68, you will be able to discover not only the products you already know, but also lots of new products.

We would like to talk to you about the latest news from Eurogrip, your projects and the future of two-wheelers.

EICMA is always a special occasion to meet old friends and make new connections.

We look forward to seeing you again!

Enduro Events

Between September and October we participated as sponsors in two exciting Motocavalcate, one in the region of Marche and one in Tuscany. These events, aimed at enduro riders, were a perfect opportunity for us to make ourselves better known in the Italian off-road world.

Being present at events of this kind allows us not only to get closer to the community of enthusiasts, but also to demonstrate the quality of our products directly on the field.

Roadhound Review - Spain

Our Roadhound sport-touring tyre has received an enthusiastic review from Spanish magazine MotoTaller.

After covering over 5,000 km, testers praised the Roadhound's outstanding versatility and performance, highlighting its perfect balance of performance and durability.

We are proud to receive such positive feedback. They confirm that we are on the right path. Our goal is to continue to meet the needs of those who love to ride, always guaranteeing safety and comfort.

Tread Talks

In the second half of August, we hosted India's leading motorbike journalists in Coimbatore. This exclusive event, called *Tread Talks*, gave us the opportunity to share the behind-the-scenes story of our tyre development, from advanced technology to rigorous track tests conducted around the world.

After a detailed presentation, we invited the journalists to test our tyres with a few laps on the track. It was an extraordinary day, full of interaction and adrenaline, which allowed us to further strengthen our relations with the local press.
