

EICMA 2025: WE'RE READY!

Only three weeks to go until *EICMA 2025* opens its doors! It will be an important opportunity to present the latest developments we've been working on and share Eurogrip's next steps in the 2-wheel market.

📍 See you in Milan from **November 4th – Hall 14, Stand H38**

Original Equipment for PIAGGIO

Eurogrip has been selected as original equipment for the new **Piaggio Beverly 310**, one of the latest models from the iconic Italian manufacturer. The scooter, fitted with our *Bee Connect* tyres, is already available at Piaggio dealers.

We expect to share further updates soon.

BMW MOTORRAD DAYS Taiwan

At the end of September, together with How Wun, Eurogrip official distributor, we took part in the **BMW Motorrad Days** in Taiwan – an event that gave us the opportunity to showcase our products to over 3,000 enthusiasts and collect valuable feedback from the international market.

Off-road events in Piedmont

This autumn we'll be in Piedmont as sponsors of two off-road events: **Motovigna**, taking place this weekend, and **Transborgaro**, scheduled for late November.

As in previous years, we confirm our support for the organisers and our active participation, reflecting Eurogrip's ongoing commitment to the off-road segment.

Trailhound STR on TOURENFAHRER

The *Trailhound STR* will be featured in a review in the November 2025 issue of **TOURENFAHRER**, one of Germany's leading motorcycle magazines.

The test highlights its neutral handling, confident cornering grip, and excellent durability, recording over 10,000 km with still 5 mm of tread remaining.
