

TRANSBORGARO

Ende November waren wir als Sponsor bei der **TransBorgaro** präsent, einem der bekanntesten Off-Road-Events in Italien. Die Präsenz mit einem eigenen Stand ermöglichte es uns, die Veranstaltung aus nächster Nähe zu erleben und uns mit einem leidenschaftlichen Publikum in einem authentischen Umfeld auszutauschen, in dem Wettbewerb, Geschichte und Technik aufeinandertreffen.

ROADHOUND IN ASIEN

In den letzten Wochen stand der *Roadhound* im Mittelpunkt zweier internationaler Tests in Asien: einer Video-Review des Medienportals **Bike IN** in Taiwan ([Video ansehen](#)) sowie eines Praxistests in Thailand mit über 4.500 km zwischen Thailand und Malaysia unter heißen Asphaltbedingungen, starkem Regen und anspruchsvollen Oberflächen. In beiden Fällen überzeugte der Reifen durch hohe Stabilität bei hohen Geschwindigkeiten, sehr gute Wasserverdrängung und ein progressives Kurvenverhalten, was Zuverlässigkeit und Leistungsfähigkeit auch unter extremen Bedingungen bestätigt.

HONDA JAHRESTREFFEN TAIWAN

Am vergangenen Samstag nahm unser lokaler Vertriebspartner **HoWun** am jährlichen Honda-Treffen in Taiwan teil. Die Veranstaltung bot eine wertvolle Gelegenheit zum direkten Austausch mit der Honda-Community und den Endkunden. Das gesammelte Feedback hob insbesondere eine verbesserte Kurvenstabilität des *Roadhound* im Vergleich zu den OE-Reifen *Michelin Road 5* hervor und bestätigte die Leistungsfähigkeit des Produkts im realen Einsatz.

ABOUT EUROGRIP

europa tyres are developed at our R&D center in Milan, where an experienced engineering team designs every element, from tread pattern and compound to structure and profile, to ensure highest performance. Advanced technology and innovative solutions allow us to continuously improve our products.

each prototype undergoes rigorous lab and real-world testing. Before final production, we perform extensive road tests on track and open roads to verify grip, stability, agility, control, comfort, and durability.

every production line in Italy, each tyre is checked to ensure it meets the highest quality standards before being delivered to the customer.
