

ABR FESTIVAL

Last week, we participated for the first time in the **ABR Festival**, the UK's leading event dedicated to the adventure motorcycling community, attracting riders from across Europe.

Together with our partners **Micheldever** and **Sticky Stuff**, we showcased the Eurogrip range to thousands of riders, enthusiasts and industry professionals, further expanding our visibility in one of Europe's most important adventure markets.

The festival provided an excellent opportunity to increase brand awareness, engage directly with end users and gather valuable feedback on our Adventure tyre range.

EVENTS

We recently took part in two events in Central Italy, including the **Hard Dragon**, which is strongly focused on hard enduro, and the **Montefeltro Rally Raid**, dedicated to enduro and adventure motorcycles.

As event sponsors, we also hosted a stand where visitors could discover our adventure and enduro tyre range, while we connected directly with experienced riders and passionate enthusiasts, gathering valuable feedback on our products.

MEDIA REVIEWS

Our tyres continue to receive strong attention from leading Italian motorcycle media, with recent tests and reviews published by Moto.it and InMoto.

- **Moto.it** tested the *Bee Wild* and *Trailhound Wild*, evaluating their performance across different riding conditions. [ARTICLE](#) + [VIDEO](#)
- **InMoto** reviewed the *Trailhound STR* and *Trailhound Wild*, focusing on their capabilities within the adventure segment. [ARTICLE](#) + [VIDEO](#)

These publications further reinforce Eurogrip's growing visibility and credibility across the European motorcycle market

FRANCE INFLUENCER

Starting in July, we launched a new collaboration with Kenzi, creator of **Off Road Trips**, who has built a highly engaged off-road community in France and across Europe.

Over the coming months, he will produce dedicated content featuring our off-road tyre range, with a particular focus on the **Climber** family. His content will include product testing, technical insights and real-world riding experiences shared through his social channels.

This partnership will further strengthen Eurogrip's brand visibility and help us connect with a highly engaged off-road audience across key European markets.
